1996 - The company was founded by Mr. Eng when he was 32 years old. He started to learn the business from his father when he was only 10. His father's business was in the same line of work, and had only 2 blowing and cutting machines with 4 workers.

2003 - the company moved to a larger factory which is still located in Bukit Mertajam, to their present location.

2013 - at the present time, the company has 25 workers with 10 blowing machines and 12 cutting machines. After successfully serving local customers all over Malaysia, they look forward to selling overseas.

Aik Chin Plastic prides itself on their focus on quality and professionalism. All of the current workers were personally trained by the owner, Mr. Eng. They will continue to focus on these core traits while looking forward to their plans to expand the business.
